Education

Instituto Tecnológico de Chihuahua II | Computer Systems Engineering

Aug 2020 – Dec 2024

Experience

Emerson | Programmer Analyst Intern

Chihuahua, Mexico | Jun 2024 – Dec 2024

- Built a web application for Honeywell CK65 devices to validate shipments through a scanning workflow.
- Built an application for managing supplier invoicing issues.
- Implemented a system to record and track rework processes for defective parts.

Mada del Norte | Support and Process Automation Analyst

Chihuahua, Mexico | Apr 2025 – Sep 2025

- Provided support for hardware, software, and data capture system issues.
- Designed and developed a database to centralize number portability information.

Featured Project

[WhatsApp Copilot](#) – Lead classification and human-reviewed drafts

Independent development project | NestJS, TypeScript, Evolution API, Supabase/PostgreSQL

- Built a backend to classify and score leads, assemble context, and generate drafts for human review.
- From May through September 2026, real incoming messages were received and persisted in production. Subsequent technical validation of classification, context preparation, and draft generation was performed locally in an isolated environment.
- Automated messaging to leads was disabled. Development is currently inactive. No commercial metrics have been verified.

Relevant Technologies

TypeScript/JavaScript · Node.js · NestJS · REST APIs · Supabase · PostgreSQL · Git · Docker

Certifications and Languages

EF SET English Certificate (Mar 2024) · Google Digital Marketing & E-commerce Certificate (May 2025)

Spanish: Native · English: C1 (EF SET, Mar 2024)
